| Gewicht exkl. Verpackung | |
| Gewicht inkl. Verpackung | |
| Abmessung Verpackung | |
| Zubehör | Kaltstecker Netzkabel schwarz |
| Optionales Zubehör | Content Management System / internes Sim Karten Modul / Logo-Beschriftung |
| Garantie | 2 Jahre |

Citybox

Changing visuals attract attention, reduce waiting times, or create surprising moments as people pass by. The content consists of vibrant videos and images, easily updated over the internet with just a few mouse clicks.

Customers have reported over 40% increase in sales for the advertised product. The Citybox poster already offers significant advertising benefits, but using digital posters provides a crucial advantage by efficiently utilizing the valuable advertising space. The ability to change visuals as often as desired opens up new possibilities. Many users now sell advertising space on their displays to third parties, generating additional revenue. Furthermore, the shift from traditional paper posters to digital ones reduces the environmental impact by eliminating production and logistics.

The Citybox is vandal-proof! Its anti-glare front glass is made from exceptionally durable special glass, meeting the impact resistance standard EN/IEC 62262 with a grade of IK10 reliably.

High weather resistance! The display is dustproof, and it can be submerged in water up to 1 meter deep for a maximum of 30 minutes (IP67 protection).

The Citybox features various amenities, including:

- Cigarette disposal
- Trash disposal (240-liter disposable bag)
- Dog waste bag dispenser (300 pieces)
- Cigarette container
- Brochure and information box.
