

Time Tracking Pro

With our Object Additional License "Time Tracking Pro," we offer you comprehensive personnel management. Service personnel can not only access and confirm their services but also document their working hours. Extensive evaluations can thus be made available to your clients, and you can have the object attendances at your fingertips with just a click!

Attendance Planning in the portal:

- On which days should service personnel come?
- At what time should service personnel arrive?
- How many service personnel should come?
- What response time do you want to grant to your service personnel?
- How long should the service personnel stay in the facility?

Entry to the facility via:

- QR code with a mobile app
- NFC only on CMN-TOUCH
- RFID only on CMN-TAQT

Your added value with CMN:

- "Arrive" and "Depart" on demand in the portal
- Overview of arrivals and departures for the facility
- Notification in case of non-appearance
- Evaluation of attendance possible based on service personnel or facility
